- Compact Color Video Camera
- 0-150 Watt Halogen Light Source
- Focus Always Feature
- USB 2.0 Video Capture Cable
- NOAH™, Sycle.Net & TIMS® Compatible

The remarkably clear resolution is particularly helpful in detecting excessive cerumen, foreign bodies, external otitis, PE tube status, cholesteatoma, TM perforations and performing cerumen management.

Video Companion Software

Capture, view and store digital images in our user friendly NOAH™, Sycle.Net & TIMS® compatible VO software.

The MedRx Video Companion Software is designed to easily interface with a laptop or desktop computer via a USB 2.0 video capture cable.
